MARBLE'S
OUTING EQUIPMENT

EVER notice how naturally your hand slips round a good gun or fishing rod? Feels good, doesn't it? Your heart thumps a little faster as you glance along the sights or whip the rod.

If you're a true sportsman, you enjoy good equipment. The things that you depend on through dangers of trail and rapids become dear to you.

When something happens to even the smallest article in your outfit, you feel bad. It's like losing a pet dog. It often takes the "zip" out of a whole trip.

Outdoor men are careful in picking equipment. They like to feel sure. Most of them have found that they can trust outing equipment if it's Marble's. They know that in an emergency Marble's never fails.

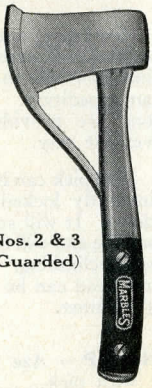
If, far from camp or town, an axe or knife breaks, you can't build your fire. You suffer from cold. Marble's Outing Equipment saves you from this. It's as faithful as your dog. It lasts. When you have Marble's stuff in your kit bag, you can forget your worries.

Marble's quality goes into safety pocket and camp axes, hunting and fish knives, gun rods and cleaners, compasses, waterproof match boxes, nitro-solvent oil, auxiliary cartridges and shell extractors. Nearly every article was designed by Webster L. Marble, for twenty-five years a hunter, trapper, land looker and surveyor. Mr. Marble knows the outdoor man's needs. Marble's quality comes from care in selecting materials, and rigid inspection. On top of this, Marble's workmen are skilled fellows who through long practice know how to turn out good stuff. They love a "pretty job." And goods with the Marble's stamp are reasonably priced.

Marble's Safety Pocket Axe

This axe should be in the automobile of every man who goes on a picnic or motor tour. Every hunter, trapper and fisherman should have it in his outfit. They are used by many Boy Scouts.

They are large enough to fell a tree and small enough to carry in a pocket. A perfect axe for "blazing," clearing a trail, setting a tent, and as necessary in the woods as a gun or knife.



Nos. 2 & 3 (Guarded)

The nickel-plated, spring-hinged guard is lined with lead and folds into the handle. The blade is made of tool steel, carefully tempered and sharpened. The metal handles are drop-forged and never break. Side plates are of rubber.

Nos. 2 & 3 (Showing Guard Folded)

There are now nearly three hundred thousand Marble axes in the hands of satisfied users. Every hardware and sporting goods dealer in America has Marble's axes.

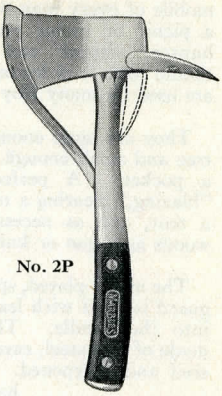
No. 2—Weight 20 ounces; length 11 inches; solid steel blade, 2⅜ x 4 inches.....**$3.25**

No. 3—Weight 27 ounces; length 11½ inches; solid steel blade, 2½ x 4⅜ inches.....**$3.50**

Three Tools in One
Pocket Axe, Folding Pick, Hammer

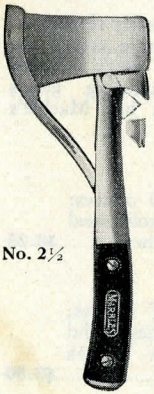
Geologist, mountaineer, miner and prospector find this tool indispensable to the success of an expedition. Three tools in one are provided in a convenient way.

The pick can be securely and instantly locked either up or down. It will stand unlimited service and will be found handy when climbing. When folded, axe head can be safely used as a hammer.



No. 2P

No. 2P — Axe No. 2, with pick.....**$4.50**



No. 2½

Folding Claw

This safety pocket axe with folding nail claw is strong enough to pull a ten-penny nail from a seasoned hemlock plank. One can get at and pull with axe blade and claw a nail that could not be removed with a hammer alone.

No. 2½—Axe No. 2, with claw.....**$3.50**

Safety Pocket Axe, Hickory Handle

The wooden handles are of selected hickory and have nickel-plated steel guard and lining for groove in handle.

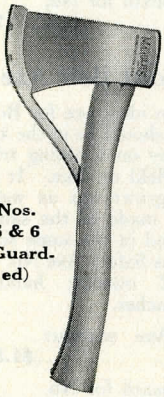
Nos. 5 & 6 (Showing Guard Folded)

No. 5

Hickory handle, weight 16 ounces, length 10½ inches; solid steel blade, 2⅜ x 4 11/16 inches..**$2.00**

No. 6

Hickory handle, weight 22 ounces, length 11½ inches; solid steel blade, 2¾ x 4¾ inches..**$2.25**



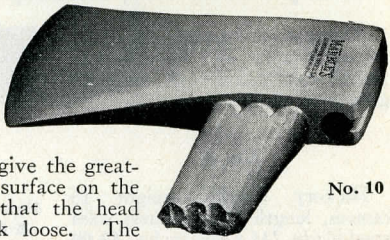
Nos. 5 & 6 (Guarded)

Take Marble's Axes on Arctic Trip

Commander Robt. E. Peary took a supply of Marble's safety pocket axes on his last two trips to the Arctic. This great discoverer also had with him a number of Marble's knives. Marble's Outing Equipment is found in almost every land where men seek the open.

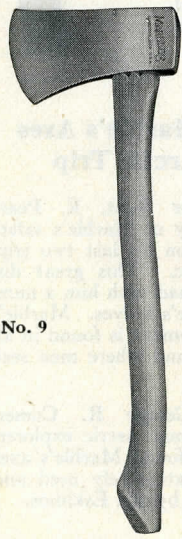
Captain George R. Comer, another famous Arctic explorer, said that he found Marble's axes and knives extensively used and highly prized by the Eskimos.

Marble's Nail-Pulling Camp Axe



No. 10

The accurately machined eye is fitted perfectly by the handle, and is constructed to give the greatest bearing surface on the handle, so that the head cannot work loose. The tempered head, designed for driving stakes, spikes and so forth, will not become battered. The nail puller has tempered jaws. All these are features exclusive in Marble's tool-steel axes.



No. 9

Blade, 3¼ x 5¼ inches; weight 28 ounces; handles, 16, 20 or 24 inches. Please mention length of handle desired.

No. 10—Camp Axe.....**$2.50**

No. 30—Sheath for No. 10 Axe..... **.75**

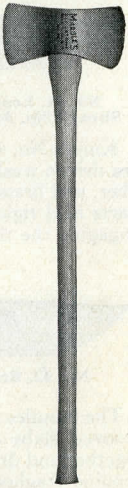
Boy Scout Belt Axe

This is an ideal axe for Boy Scouts and should be in the kit of every boy on a hiking trip to woods, field or lake. It is prized by grown-ups as well. The axe is made of the same fine steel and in the same size and shape as Safety Axe No. 6. Weight 22 ounces; handle length 14 inches.

No. 9 — Axe without sheath.....**$1.50**

No. 29—Sheath for No. 9 Axe..... **.75**

Marble's Double-Bitted Axe



A delightful little axe for speedy work such as clearing a trail or cutting firewood. The double edge enables the user to always have one sharp edge for chopping and the other for general use.

Blade 8¼ x 3¾ inches, weight 2½ pounds, handle 28 inches.

No. 15—Double-bitted Axe.....**$3.50**
No. 31—Sheath for No. 15 ..... **1.25**

Leather Axe Sheaths for Safety Pocket Axes

Axe sheaths made of strong leather for attaching to belt can be obtained for all safety pocket axes. Size of axe should be given when ordering.

No. 19—Full length.....**$1.10**
No. 20—Half length..... **.85**

No. 19

Nos. 29 and 30

Belt and Camp Axe Sheaths

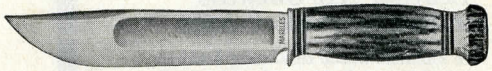
Leather sheaths are also supplied for belt and camp axes.

No. 29—For No. 9 Belt Axe.....**$0.75**
No. 30—For No. 10 Camp Axe.. **.75**
No. 31—For No. 15 D.B. Axe.... **1.25**

Marble's Ideal Hunting Knife

No. 41, Leather Handle Ideal (with Hilt, No. 45)
Sheath No. 34, Furnished with No. 41 and 42 Knives

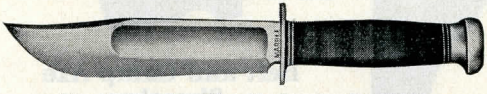
Knives No. 41 and 45 have a heavy tang upon which are driven washers made of sole leather, red and black fiber, and brass. Bolster is brass. Tip, aluminum. All parts held rigidly by a round brass nut sunk into tip, engaging the threaded end of tang.



No. 42, Stag Handle Ideal (with Hilt, No. 46)

The handles of Nos. 42 and 46 are composed of two grooved slabs of selected staghorn, carefully riveted together and driven on the tang. Brass bolster. Tip of genuine staghorn.

Imitations are sometimes marked "Marble Pattern." Buy only those marked "Marble's," Gladstone, Michigan, U. S. A.



No. 45, Leather Handle Ideal. Has Hilt
Sheath No. 39, furnished with No. 45 and 46 Knives

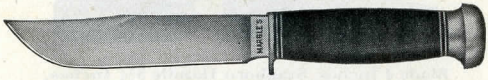
Leather Handle No. 41 or 45		Stag Handle No. 42 or 46	
4¼-inch blade	$2.50	4¼-inch blade	$3.25
5 -inch blade	2.75	5 -inch blade	3.50
6 -inch blade	3.00	6 -inch blade	3.75
7 -inch blade	3.25	7 -inch blade	4.00
8 -inch blade	3.50	8 -inch blade	4.25

Marble's Woodcraft Knife

The thick back with tapering bevel blade carries the strength from handle to point, so that it serves as well as a thin blade, yet has the surplus of strength found usually in heavier knives. It's an all-purpose knife for hunting, fishing, or canoeing. Thousands of Boy Scouts own these knives. Blade 4½ inches. Aluminum tip.

No. 49—Leather handle with sheath No. 39.....**$2.25**
No. 50—Staghorn handle with sheath No. 39..... **3.00**

Marble's Expert Knife

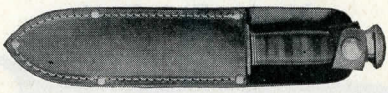


Leather handle, aluminum tip. Furnished with sheath No. 34.

A thin, keen edge for dressing skins and furs. Back of blade designed for scraping skins while on the forms.

No. 545—Blade 5 inches; weight 3½ ounces.....**$2.50**

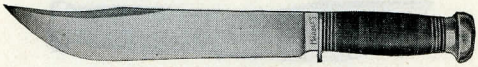
Marble's Knife Sheaths



Although each Marble's Hunting Knife is regularly furnished with a leather sheath, these sheaths can be supplied separately when desired. Hilt Knives take flat sheath shown above, Bolster Knives take tube sheath.

No. 34—Tube knife sheath, 5 and 6 inches.....**$0.60**
No. 34—Tube knife sheath, 7 and 8 inches..... **.75**
No. 39—Sheath for hilt knives, 5 and 6 inches..... **.60**
No. 39—Sheath for hilt knives, 7 and 8 inches..... **.75**

Marble's Trailmaker Knife

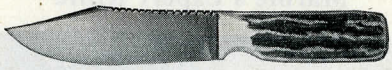


Blade 10 Inches, Handle 5 Inches, Weight 15 Ounces

No cutting tool will serve as many purposes. Tent poles, light firewood, and trees up to several inches in diameter can be cut as quickly as with an axe.

No. 56—Each, with sheath No. 39.....**$5.50**

Marble's DeWeese

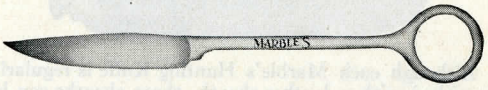


Blade 4 Inches, Staghorn Handle 3¼ Inches, Weight 3 Ounces

It has a dull saw back on which the thumb is placed when skinning, or cutting hard substances. When sticking, the little finger should be doubled up, letting the end of handle rest against it. This takes the place of a hilt.

No. 62—With sheath No. 34, each.....**$2.00**

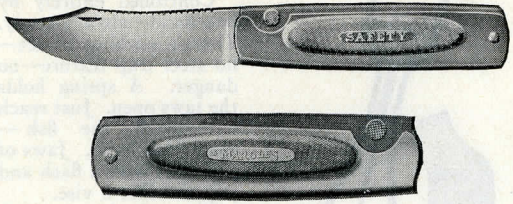
Marble Fish Knife



Designed for dressing trout and small fish. Forged from finest cutlery steel; 5⅝ inches long, ⅛ of an inch thick. Insert little finger in ring, place remaining fingers and thumb back of blade and against the curve of the shank. Made in one piece, it is easily cleaned.

No. 79—2-inch blade, with metal bound leather sheath....**$0.75**

Marble's Folding Fish Knife

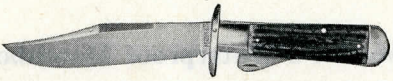


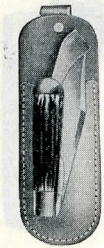
The blade is sharp at back of point for ripping and the back is an excellent fish scaler. It is a good all-around pocket knife for sportsmen, ranchmen and stockmen.

The blade, when folded, is entirely protected by the unique but simply operated nickel silver handle. When open it is as safe and rigid as a one-piece knife.

No. 78—Blade 4 inches, weight 3½ ounces.....**$1.50**

Marble's Safety Hunting Knife

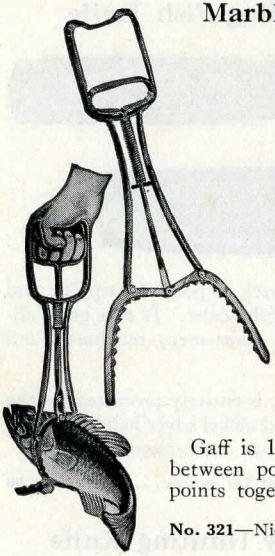




The extension guard acts as a safety lock when the knife is open, and makes it rigid as a one-piece knife. When either open or closed, the blade is held in position by a spring. The hilts, bolsters and linings are of nickel silver. Side plates are genuine staghorn. Sheath furnished.

No. 83—Blade 4¼ inches, weight 4 ounces.....**$3.50**

No. 85—Blade 5 inches, weight 6 ounces.. **4.00**



Marble's Clincher Gaff

Controlled entirely by one hand—always ready. There's nothing to set—no steel trap feature—no danger. A spring holds the jaws open. Just reach out—touch the fish—close your hand. Jaws of gaff shut with a flash and grip fish like a vise.

The only humane gaff on the market. Leaves no ugly holes or tears. Quicker and surer than a landing net, and you can land a fish twice as far away as with a landing net of same length.

Gaff is 18 inches long; 7½ inches between points; can be locked with points together.

No. 321—Nickel-plated.....**$1.25**

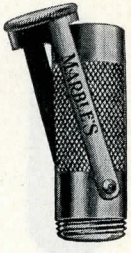
Marble's Waterproof Matchbox

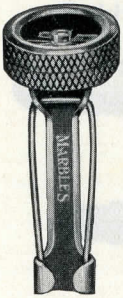
It can be quickly opened and closed and is absolutely water and moisture proof.

A waterproof matchbox is cheap life insurance. They are always a comfort and sometimes they save lives.

Made of seamless drawn brass, heavily nickeled, ¾ of an inch inside diameter, rubber gasket in the cover.

No. 181.....**$0.60**





No. 082

Marble's Coat Compass

Never goes wrong. It attaches to outside of coat. Has waterproof screw case. Always in sight and balances so readily that direction can be taken while walking. Does not easily become demagnetized. Made of brass, and is 1⅛ inches in diameter.

Nos. 082L and 186L have luminous dials that point the way as plainly in the dark as in the light. Weighs 2 ounces.

Marble's Broken Shell Extractor

Made for nearly all calibers from .22 Automatic to .45-90 inclusive. The Marble Extractor slips inside the broken shell, grabs it by the nose and one motion of the lever throws out extractor and the broken section. Mention caliber desired.

No. 160.....**$0.75**

Marble's Auxiliary Cartridge

Rimless Cartridge Style

Savage .22 H. P. Style No. 161

Places the pistol cartridges at the forward end of shell chamber for firing. Bullet takes rifling on being fired; does not strip and become deformed; does not lead the barrel. It allows the use of cheap ammunition for small game or target shooting in a large, high-powered rifle.

Perfectly harmless to any part of the rifle. Can be used through the magazine if desired.

Order by number in list below.....**$0.75**

No. 150—Size .30 Remington for use with .32 short Colt cartridges.

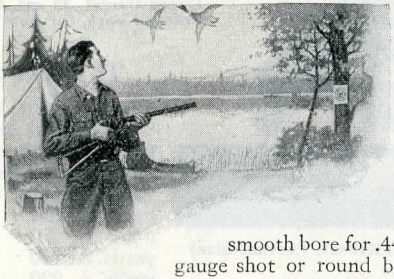
MARBLE'S GAME GETTER GUN

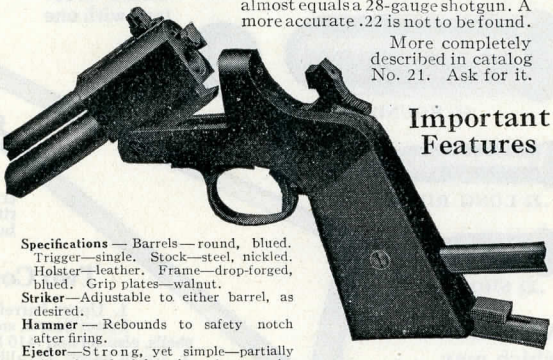


Upper barrel is .22 cal., rifled, for .22 short, long and long rifle cartridge. Lower barrel is smooth bore for .44 cal. and .410 gauge shot or round ball cartridge.

You Can Get Large Game

Do wing shooting, practice at the target, or bag small game without using expensive ammunition. The .44 ball is exceptionally accurate and powerful. With shot the Game Getter almost equals a 28-gauge shotgun. A more accurate .22 is not to be found.

More completely described in catalog No. 21. Ask for it.



Important Features

Specifications — Barrels — round, blued. Trigger—single. Stock—steel, nickled. Holster—leather. Frame—drop-forged, blued. Grip plates—walnut.

Striker—Adjustable to either barrel, as desired.

Hammer — Rebounds to safety notch after firing.

Ejector—Strong, yet simple—partially ejects from both barrels at the same time.

Receiver Lock—Trigger guard must be pulled back to open breech.

Folding Stock—Made from cold-rolled sheet steel, nickeled. To place in rigid position swing it backwards, pulling back on sliding lock. Stock is locked by an extremely strong sliding lock which enters a notch 1/8-inch deep at base of grip.

Ammunition for "Game Getter"

SMOKELESS powder is used in the Game Getter with perfect safety—it gives a very slight recoil. The gun can be held perfectly steady, as the grip is very large and at right angles to shooter's arm. Any standard make of .22 short, long or long rifle, .410 (2-inch shell) or .44-40 shot or round ball ammunition can be used in the Game Getter. The .44-40 cartridges giving best results are those made especially for the Game Getter by leading manufacturers. Ammunition so put up has ".44 Game Getter" printed on the box. **We do not recommend** the use of the regular .44-40 conical ball cartridge on account of the heavy recoil—also bullets will key-hole at a very short distance from the muzzle. Shot cartridges with wooden or paper ends are especially adapted to barrels. However, they can be used in the Game Getter ge uncertain results.

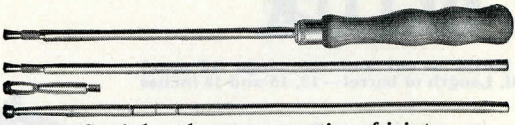
Marble's Jointed Brass Rifle Rod



Cut below shows cross section of joints

See That Steel Connection

The view of joint shows size of rod for .22 and .25 caliber rifles. Note the size—which gives needed strength. The rod for .30 caliber rifles and up is larger. It will not break off in the rifle. It is as rigid as a one-piece rod—and stays so.

The end of rod is fitted with a steel roller-bearing swivel which will withstand hard pulls and thrusts and prevent unscrewing of joints.

The wood handle projects beyond ferrule and prevents marring of muzzle.

Furnished with jagged and slotted tips and bag, and attachments which make rods fit any size or make of cleaner.

No. 9622—.22 and .25 cal., .204 in. diameter. Lengths 26, 30, 36 in. **$1.25**

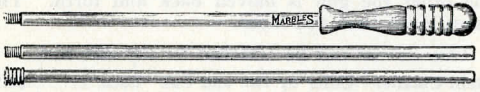
Marble's Shotgun Rod



Made in three sections from solid light metal. Light as wood, and stronger, as they will not split. Joints are heavily threaded. Knob on end holds rag for cleaning and oiling. Threaded to take all standard makes of cleaners. Wooden handle that fits the hand. In a cloth bag.
No. 400—10 to 20 gauge, ⅜ in. dia. standard length.....**$1.00**
No. 410—410 and .28 gauge, 5/16 in. dia. standard length.. **1.00**

Marble's Rifle Cleaner

Sections are made of eight brass gauze washers on a spirally bent spring-tempered steel wire, separated by smaller fibre washers. The brushes are a little smaller than bore of rifle or revolver. This allows the spiral spring to force but one side of each brush against the bore. Thus they follow the twist, reach into every angle of the entire rifling and rapidly remove all lead, copper, rust or powder residue.

Marble's Nitro-Solvent Oil

No. 244

A Solvent is combined with a lubricant and other ingredients to make an oil that will dissolve and remove powder residue and leave the barrel and works lubricated.

It should be used alone—no other oil is necessary.

It stops corrosive action by neutralizing the acids of the residue before or after they have penetrated the steel.

No. 544

Cleans and polishes varnished finishes.

Does not dry up quickly and will not gum. A perfect lubricant for reels, motors and light machines.

No. 244—3-ounce can.....$0.30

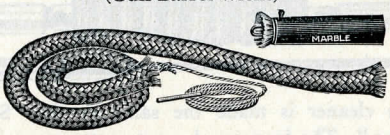
Marble's Anti-Rust Ropes

(Gun Barrel Wicks)



When saturated with oil these "cotton wicks" exclude all air and moisture and make it impossible for the barrels to rust or become pitted. One oiling will last a year.

They are longer than barrel and larger than bore. A 12-gauge rope needs 3½ to 4 ounces of oil and a .30 caliber rope needs about two-thirds of an ounce.

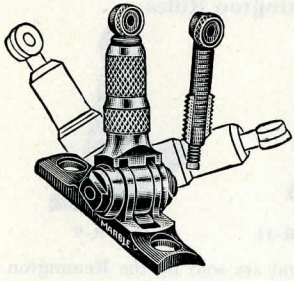
Marble's Flexible Rear Sight



For All Standard American Rifles

Held in upright position by double-acting spring. Sight yields when struck and automatically flies back to correct place. Cannot be injured by blows or shocks and is always ready for accurate shooting. Can be locked down at will and instantly raised when wanted. Jamb nut at bottom securely holds elevation sleeve and keeps disc stem always rigid and in alignment.

This sight will fit all American rifles, except Remington Models 12, 14, 16, 24 and 25. (See page 24.) When ordering state whether or not the rifle has pistol-grip stock and be careful to give make, model and caliber. Furnished with discs, No. 1 and 2 having different apertures.

No. 87—For standard slot in round and octagonal barrels.....**$0.25**

No. 87S—For slot in barrel of Stevens rifles..... **.25**

No. 87A—For Remington Auto. Loader.. **.50**

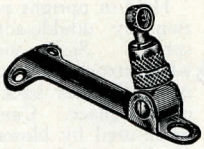
NOTE—Do not accept sights made for rifles other than the ones on which they are to be fitted.

When ordering sights, be sure to give make, model and caliber of rifle.

Ask for sight chart listing the Marble Sights adapted to each make, model and caliber of rifle and revolver.

Marble's Special Rear Sight

For Remington Rifles



Nos. R-7, R-8, R-10 and R-11

No. R-9

Have been adopted and are sold by the Remington Arms Company.

They cannot be made with flexible joint because they must be made low, but they have all other features of Marble's flexible rear sights. They can be folded down to tang. Furnished with Disc No. 1 and 2.

No. R7—For Model 12, .22 repeater.....**$4.00**
No. R7C—For Model 12CS, .22 caliber repeater..... **4.00**
No. R8—For Model 14, high power..... **4.00**

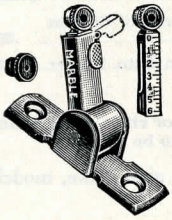
No. R10—For Model 24, .22 auto..... **4.00**
No. R11—For Model 25, .25-20 and .32 cal. repeater..... **4.00**

Marble's Simplex Rear Sight

A peep sight at a moderate price for .22 caliber rifles only



The stem can be set quickly in any position by raising the lock to a horizontal position and moving the stem up or down with the fingers.

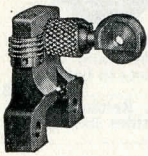
The lock holds stem rigid at any elevation.

The sight is held quite firmly by an inside spring in the proper position for shooting, but can be easily folded down.

Price, with two discs, having different apertures.....**$2.00**

Marble's Receiver Sight

Adjustable for elevation and windage. Each quarter turn of elevation screw changes elevation .0125 of an inch, and each quarter turn of wind gauge screw gives a variation of .0104 of an inch. Aperture in disc is 3/32 of an inch. Sight attaches to side of receiver, around ejector. Absolutely rigid. Furnished with drill, tap and screws.



No. S20—For Savage 1920 bolt action rifles..... **$6.50**

No. LE—For Lee-Enfield military and sporting rifles..... **6.50**

No. RO—For Ross sporting and military rifles..... **6.50**

No. KR—For Krag rifles and carbines..... **6.50**

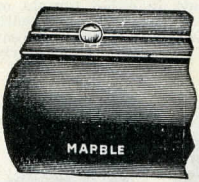
No. 95NRA—For Savage 1919 and 1922, .22 caliber..... **1.50**

Marble's Shotgun Sights



Bi-Color Front

Ivory Rear

Rear Sight Reamer

Front Sight Reamer

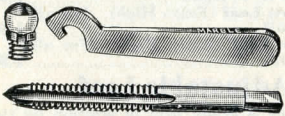
The chief and great advantage of the "Bi-Color" sight is that it will not break off as very often happens with an all-ivory sight. It can be seen in any light.

Ivory Rear

This sight should be placed at about the center of the barrels, or from 12 to 16 inches from the muzzle sight, according to length of gun and shooter's eyesight—never more than 18 inches.

For Double Barrel Guns Only

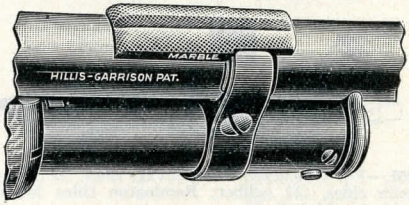
No. 220—Both sights and reamers.....**$1.20**
No. 221—Bi-Color Front Sight.....**.60**
No. 223—Ivory Rear Sight.....**.40**
No. 224—Front Sight Reamer.....**.10**
No. 226—Rear Sight Reamer.....**.10**



For Single Barrel Shotguns Only

No. 219 — Bi-Color Front Sight, with tap and wrench..**$1.00**

Marble's Semi-Rib



The optical effect in using this device is the same as when using a gun with rib the full length of barrel. It does not make gun muzzle heavy, yet gives all the advantages of a full length rib with but nominal cost. If a person undershoots (a common fault) the rib can be shimmed up with paper. The ribs prevent sighting over side of frame and assist in quick, accurate firing.

No. 227—For model '97 and M-12 Win. Repeater. 12-gauge only.....**$1.00**

Marble's Standard Sight

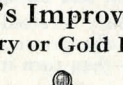
Ivory or Gold Bead

Handsome and well made. For all American rifles in 1/16, 3/32 and 1/8-inch ivory or Pope's Island gold beads.

Each.....**$1.00**

Marble's Improved Sight

Ivory or Gold Bead



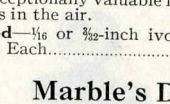
This sight gives a "long look ahead." Permits accurate shots at any range without stopping to adjust the rear sight.

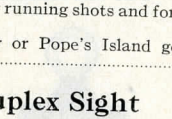
On a range somewhat longer than the gun is sighted for, one can see the object aimed at under the center of the bead as well as over.

It is exceptionally valuable for running shots and for shooting at objects in the air.

Improved—1/16 or 3/32-inch ivory or Pope's Island gold bead. Each.....**$1.00**

Marble's Duplex Sight





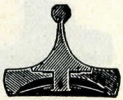
Coarse Bead Folded **Coarse Bead Up**

Gives shooter choice of fine or coarse bead. Fine bead is 1/16-inch gold; coarse bead is 1/8-inch white enamel, and will always retain its snowy whiteness.

No. 3—For Winchester 1894; .25-35, .30-30, and .32 W. S.
No. 3—For Marlin 1893; .38-55 H. P. S.
No. 5—For Marlin 1893; .25-36 H. P. S., .30-30, .32, and .32-40 H. P. S.
No. 5—For Savage 1899; .25-35, .30-30, .300 and .303, except Featherweights (.22 H. P., .250-3000, and .300).
Duplex Front Sight.....**$1.50**

Marble's Reversible Sight

Ivory and Gold Bead



Both beads are the same size and are furnished in 1/16 or 3/32-inch sizes. This combination meets every possible condition of light and background.

Sight can be instantly reversed. Simply pull up the bead carrier against the pressure of the spring until it clears the groove—then turn it around.

A dowel near each end of groove engages with holes in the bottom of bead carrier. These would take up the shock of a blow on either end.

Reversible ivory and gold bead, each.....**$1.50**

Marble's V-M Sight

For All American Made Rifles

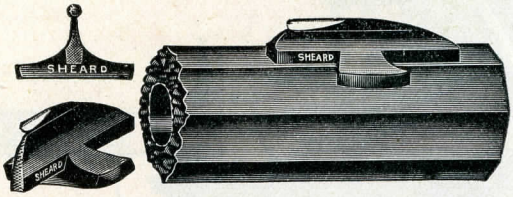
Embodies an optical principle new to many shooters. As the eye quickly and surely finds the center of the peep sight, so it finds the center of this front sight. The object aimed at is not covered up by the front sight. The shooter aims directly at the point of impact instead of lower, as is necessary with bead sights. The act of aiming is without effort and always accurate.

Face and lining of aperture are made from our lustrous Pope's Island gold, visible in the dimmest light. The aperture is 5/32-inch inside diameter, 1/4-inch outside diameter, 1/8-inch deep.

V-M Sight.....**$1.50**

When ordering sights, be sure to give make, model and caliber of rifle.

Sheard "Gold" Hunting or Target Sights



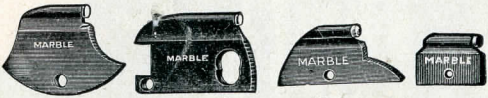
This sight is guaranteed to show up well in the darkest timber, under any and all circumstances, and not to "blur." Will show the same color on different colored objects; will stand rough work and improve the shooting greatly.

Made to fit nearly all sporting and military rifles, carbines, target revolvers and pistols, and Luger automatic pistols.

When ordering Sheard front sights for Mauser and Mannlicher rifles, send front sight now in use on rifle as sample to make sure that correct sight is sent. For other rifles and revolvers give make, model and caliber.

Sheard Sight—With medium bead, each.....**$1.50**

Marble's Special Sights



No. 35 **No. 37** **No. 11** **No. 16 and 894**

No. 11—New Springfield Model '03 and '06, 1/16 and 3/32-inch beads. State color and size of bead.....**$1.00**

No. 16—Savage Featherweight, including .22 H.P. and .250-3000 1/16 and 3/32 inch bead (Give serial number)..... **1.00**

No. 16A—Savage Model 99 .300 Featherweight, and Model 20 Bolt Action (Give serial number)..... **1.00**

No. 35—Smith & Wesson military and police target revolvers. In ordering state caliber and length of barrel. 1/16-inch bead only..... **1.00**
